**New for KITS V4.14**

- Support for KI2000 series meters.
- Updated support for latest standards.
- Marginal test result displayed in the Live Data sheet.
- .csv file export / import function.
- Function to allow saving a KITS workbook as KITS unlinked.
- General user experience improvement.
- Reminder to take reference.
- Warning when meter returns no valid data.
- Faster testing for 2 way autotest operation. 5 seconds for 2 wavelengths!
- Bugs fix in wavelength select on initial Test Setup.
- Worst case selection option on Pass / Fail Setup.
